On a roll

50.000 x 500 x 2mm

**also available with green (RAL 6009) top layer*

Key benefits of the Amfi-wall®

- Straight line of sight at different temperature levels.
- Elongated holes are superfluous, panels may be mounted directly to the wooden posts.
- Panels are easily processed due to their compact sizes.
- Panels may be used as stand-alone or combined with wire mesh barriers.
- Waves will match the post-rounding's.
- Amfi-wall® panels are easily bended into curves.
- Contribution to traffic safety, as car lights will not be reflected due to the wave and pattern of the Amfi-wall® panels.
